TPC Sawgrass Clubhouse in Ponte Vedra Beach, Florida

Architect: Chapman Coyle Chapman

Contractor: Clark Construction Group, LLC

Products: Custom Wood fixed radius and geometric windows and Epic® series swinging patio doors, Custom Wood exterior and interior doors

Comments: Architect Mike Shue praised JELD-WEN® products for having a wide range of options that gave him “a good opportunity to create a distinctive look.” He also appreciated the assistance from JELD-WEN representatives. In fact, they even tested the windows to ensure they’d withstand the demands of Florida’s climate.

Pan American Lofts historical renovation in Los Angeles, California

Architect: Donald Barany Architects

Contractor: Urban Pacific Group, LLC

Products: Over 300 Custom Wood Epic® series double-hung and radius top double-hung windows

Comments: For historic renovations, authenticity is often more than an ideal—it's a mandate. And for the team that created the Pan American Lofts, JELD-WEN proved to be the only manufacturer that could meet preservation requirements. Architect Donald Barany expressed that JELD-WEN® double-hung windows offer both visual accuracy and necessary waterproofing.

Bedford Springs Resort Inn in Bedford, Pennsylvania

Architect: 3 North

Contractor: Reynolds Construction

Products: Premium Wood Sitrine EX swinging patio doors, sidelights and transoms, Premium Wood Tradition Plus double-hung and fixed geometric windows and transoms

Comments: JELD-WEN was proud to participate in the renovation of this National Historic Landmark, which was reopened in July 2007. To meet preservation standards, our Premium Wood Sitrine EX and Premium Wood Tradition Plus windows with historically approved exteriors were selected. Other features, like Brilliant White cladding and simulated divided lites, added to the project's authenticity.

Boston Condominiums historic renovation in Boston, Massachusetts

Architect: Grassi Design Group, Guy Grassi

Developer: GTI Properties, Inc.

Products: Premium Wood Tradition Plus clad fixed spandrel units and awnings, double-hung and radius and geometric windows, French View swinging patio doors and transoms

Comments: As part of South Boston's revitalization, this historic warehouse was transformed into condominiums, with penthouses on the upper floors. The products used helped support not only the upscale look of this project, but also the balance between old and new. For example, both traditional double-hung windows and streamlined, contemporary patio doors were used.

Product details

- 1 Windows:** Premium Wood Tradition Plus awning, double-hung and geometric windows, Chestnut Bronze cladding (on awning and geometric windows) and Desert Sand cladding (on double-hung windows), Low-E glass
 - 2 Window:** Premium Wood Tradition Plus radius window, Chestnut Bronze cladding, simulated divided lites, Low-E glass
 - 3 Windows:** Premium Wood Tradition Plus transoms, painted Pine interiors, Low-E glass
- Patio Doors:** Premium Wood Tradition Plus French View swinging patio doors, painted Pine interiors, Low-E glass

Product details

- 1 Windows:** Custom Wood casement and geometric windows, Chestnut Bronze cladding, Low-E glass
- 2 Patio Doors:** Custom Wood French swinging patio doors, painted Pine interiors, Low-E glass
- 3 Windows:** Custom Wood casement window and transoms, painted Pine interiors, Low-E glass
Patio Doors: Custom Wood French swinging patio doors, unfinished stain-grade natural pine interiors, Low-E glass
- 4 Windows:** Custom Wood casement windows and transoms, painted Pine interiors, Low-E glass
- 5 Doors:** Custom Fiberglass Folding Door System, A5001 paintable doors, Low-E glass

LEED® Certified *Sunset Magazine* Idea House in San Francisco, California

Architect: John Lum Architecture

Developer: Meridian Builders & Developers, Inc.

Products: Custom Wood casement and geometric windows and swinging patio doors, Custom Fiberglass folding door system

Comments: JELD-WEN was proud to be part of this project—one of the first LEED-certified residential remodeling projects in the United States. One of the ways JELD-WEN meets LEED certifications is by creating windows and patio doors with solid pine AuraLast® wood, which offers environmentally friendly protection from wood decay, water saturation and termites.

Queens College in Charlotte, North Carolina

Architect: Jenkins-Peer Architects

Contractor: Rodgers Builders, Inc.

Products: Custom Wood radius and geometric windows and Epic® series swinging patio doors with sidelights

Comments: The architecture's dramatic elegance was enhanced with a wall of windows comprised of geometric and radius windows and Epic series swinging patio doors. Their architectural authenticity also helps uphold the heritage of the building, which is a permanent landmark.

Note: See pages 2–3 for more photos from this project.

Product details

- 1 Windows:** Custom Wood radius windows, Brilliant White cladding, simulated divided lites (SDL), Low-E insulated glass
Patio doors: Custom Wood Epic series swinging patio doors with sidelights, Brilliant White cladding, Low-E insulated glass
- 2 Windows:** Custom Wood geometric windows, Brilliant White cladding, SDL, Low-E insulated glass
Additional elements: Omega special panels (decorative panels shown here between the top and bottom rows of geometric windows)

Product details

1 Windows: Custom Wood casement, fixed casement and awning windows, Chestnut Bronze cladding, simulated divided lites (SDL) with 1/8" bead, Low-E glass

Entrance door: Premium Wood 1882 Knotty Alder flat panel door, square sticking

2 Windows: Custom Wood geometric and awning windows, Black Emerald and Chestnut Bronze cladding, Low-E glass

Patio doors: Custom Wood Epic series 2-panel swinging patio doors, full lite tops and half lite bottoms, Low-E glass

3 Windows: Custom Wood double-hung, fixed casement and awning windows, Chestnut Bronze cladding, SDL with 1/8" bead, Low-E glass

Patio doors: Custom Wood Epic series 2-panel swinging patio doors, full lite tops and half lite bottoms, Low-E glass

LEED® Gold Certified Brasada Ranch® in Powell Butte, Oregon

Architect: CCY Architects

Developer: Keeton-King Construction

Products: Custom Wood casement, fixed casement, awning, geometric and double-hung windows, Custom Wood Epic® series swinging patio doors, Premium Wood exterior door

Comments: Walls of windows with Low-E glass added to the energy efficiency and natural daylighting that contributed to the Gold LEED certification. Windows also feature Douglas fir interiors that match the reclaimed wood used throughout the resort. Architect Richard Carr praised JELD-WEN for delivering environmentally and aesthetically pleasing options, “We never felt like we were being sold or pressured...the sales team was a natural extension of the design team and our solution.”

Show home for *Home and Remodeling* magazines in San Francisco, California

Architect: Mark English Architects

Developer: RBR Development

Products: Custom Wood casement and geometric windows, swinging patio doors and folding door system, Custom Carved interior doors, Wood Composite garage doors

Comments: JELD-WEN caught architect Mike English's attention for many reasons. He liked the wide variety of design options, the ability to get a complete window and door package from one manufacturer, and the fact that JELD-WEN offered an intriguing folding door system. JELD-WEN also added energy efficiency for this "green house" with ENERGY STAR® qualified windows and doors.

Product details

- 1 Doors:** Custom Carved 2020 interior doors, 110/112 raised moulding
- 2 Garage Doors:** Wood Composite Estate series #84 garage doors, clavos and knockers in Dark Patina
- 3 Windows:** Custom Wood transoms, primed wood exteriors with custom paint finish, simulated divided lites with 1/8" bead, Low-E glass

Doors: Custom Wood swinging patio doors, primed wood exteriors with custom paint finish, Low-E glass; Custom Wood folding door system, 5037 paintable doors, Low-E glass

1

2

**Milwaukee Road Depot
in Minneapolis, Minnesota**

Architects: ESG Architects and Shea Architects, Inc.

Contractor: Dan Ackmann, BOR-SON Construction, Inc.

Products: Custom Wood Epic® series double-hung windows and swinging patio doors

Comments: Traditional window styles and brickmould were used to support the look of this historic train station. In addition, these energy efficient windows added exceptional thermal performance, which is especially important for the cold climate.

Product details

- 1 **Windows:** Custom Wood Epic series double-hung windows, Chestnut Bronze cladding, Low-E glass
Patio Doors: Custom Wood Epic series swinging patio door with radius transom, Chestnut Bronze cladding, Low-E glass
- 2 **Windows:** Custom Wood Epic series double-hung windows with custom curved rail, painted Pine interiors, Low-E glass

Product details

- 1 Windows:** Premium Wood Tradition Plus geometric and double-hung windows, French Vanilla cladding, simulated divided lites (SDL) on double-hung windows, Low-E glass
- 2 Windows:** Custom Wood transom, French Vanilla cladding, SDL, Low-E glass
Door: Custom Wood 102 paintable door, Eggshell paint
- 3 Windows:** Premium Wood Tradition Plus double-hung windows, French Vanilla cladding, SDL, Low-E glass
Garage Doors: Wood Composite Carriage House series #6 garage doors, handles and straps in Dark Patina
- 4 Windows:** Custom Wood transom and Premium Wood Tradition Plus double-hung windows, French Vanilla cladding, SDL, Low-E glass
Door: Custom Fiberglass A5506 Mahogany woodgrain door, Honey finish, Clear IG glass
- 5 Windows:** Premium Wood Tradition Plus double-hung windows, French Vanilla cladding, SDL, Low-E glass

Show home for *Coastal Living* magazine in Oriental, North Carolina

Architect: Historical Concepts

Builder: Watermark Custom Homes

Products: Premium Wood Tradition Plus casement and double-hung windows, Custom Wood exterior doors, Custom Fiberglass exterior doors, Wood Composite garage doors

Comments: This home features classic Colonial architecture—perfectly appropriate for a coastal home in the Southeastern United States—and the JELD-WEN® windows and doors that were used add to the home’s architectural authenticity. For example, the garage doors feature a design reminiscent of old-fashioned American carriage houses.

Residence in Greensboro, Georgia

Architect: William Taylor Custom Homes, Inc.

Contractor: William Taylor Custom Homes, Inc.

Products: Custom Wood casement and geometric windows, swinging patio doors, transoms and interior doors

Comments: This home features plenty of Old World architectural appeal, and JELD-WEN® windows and doors helped create its charming character. Custom Wood windows set in the tower appear especially intriguing with copper cladding. And inside the home, historically inspired radius top doors serve as more than functional passageways—they're design elements in their own right.

Product details

- 1 Window:** Custom Wood casement window, copper cladding (on panel) and Chestnut Bronze cladding (on frames), simulated divided lites (SDL), Low-E glass
- 2 Windows:** Custom Wood casement and geometric windows, copper cladding (on sash) and Chestnut Bronze cladding (on frames), SDL, Low-E glass
Recommended doors: JELD-WEN creates similar doors to those shown here—Custom Wood 1260 Genuine Mahogany doors, Cherry finish, Clear IG glass, Mediterranean™ grille in Dark Patina, optional segment top
- 3 Windows:** Custom Wood casement windows, painted Pine interiors, SDL, Low-E glass
Interior Door: Custom Wood E0022C Knotty Alder door with optional radius top, Chappo finish
- 4 Windows:** Custom Wood transoms, painted Pine interiors, SDL, Low-E glass
Patio Doors: Custom Wood swinging patio doors, copper cladding (on panel) and Chestnut Bronze cladding (on frames), painted Pine interiors, SDL, Low-E glass

Product details

- 1 Patio Door:** Custom Wood swinging patio door with roll screen, sidelights and transoms, Black Licorice cladding, simulated divided lites (SDL), Low-E glass
- 2 Door:** Custom Wood 1202 Alder Dutch interior door, custom finish
- 3 Windows:** Custom Wood geometric windows and transoms, Black Licorice cladding, SDL (on transoms), Low-E glass
Patio Doors: Custom Wood swinging patio door and sliding patio doors, Black Licorice cladding, Low-E glass
- 4 Windows:** Custom Wood casement and geometric windows and transoms, Knotty Alder interiors, SDL on casement window and transoms, Low-E glass
- 5 Window:** Custom Wood casement window, copper cladding (on sash), Black Licorice cladding (on frame), SDL, Low-E glass
- 6 Door:** Custom Fiberglass A5506 paintable door, custom finish
- 7 Windows:** Custom Wood casement and radius and geometric windows, Black Licorice cladding (second floor casement windows also include copper cladding), SDL, Low-E glass
Door: Custom Wood 1260 Alder flat top door, sidelights and transom, Chappo finish
Patio Door: Custom Wood swinging patio door with sidelights and transoms, Black Licorice cladding, SDL, Low-E glass

Country Home magazine Idea Home in Oregon City, Oregon

Architect: Alan Mascord Design Associates

Contractor: Blazer Development, Inc.

Products: Custom Wood casement and radius and geometric windows, swinging and sliding patio doors, sidelights, transoms and exterior and interior doors

Comments: The design options—and even the price—of JELD-WEN® products is what led architect Eric Schnell to select them for this project. He liked that certain options, such as the clad color he chose, were available from no one but JELD-WEN. This also wasn't his first project with JELD-WEN products. Schnell says he's been using them "almost since I started hearing about them."

About JELD-WEN

Since 1960, when JELD-WEN began as a small Oregon millwork plant, we've been dedicated to creating reliable windows and doors that are energy efficient, beautiful and worry-free.

JELD-WEN is proud to be a member of the Green Building Initiative (GBI). GBI is a nonprofit organization that accelerates green building practices by promoting environmentally progressive approaches that are practical, affordable and accessible to mainstream builders, architects and developers. As a member, we help state and local homebuilder associations develop local green building programs that are appropriate for their regions. These programs then help builders develop homes that are energy efficient, healthier to live in, and better for the environment.

We also believe in supporting our communities. One way we do this is through the JELD-WEN Tradition Foundation, which provides charitable funds to educational organizations. We've been the title sponsor of the JELD-WEN Tradition on the PGA TOUR's Champions Tour since 2003; we're a proud partner of THE PLAYERS; and we're the official window, door and millwork provider of the PGA TOUR.

The JELD-WEN website is your ultimate resource for learning about our reliable windows and doors. It has all the product information and design advice you need. Visit us at www.jeld-wen.com today.

RELIABILITY *for real life*[®]
